Dear Sir,

Re: **Audit of Placement Report for 2023 placements of Post Graduate Programme in Food & Agribusiness Management (PGP-FABM).**

We have audited the Placement Report prepared by you on the final placement (based on the offers received and accepted on campus) of students in 2023 of the Post Graduate Programme in Food & Agribusiness Management (PGP-FABM) of the Indian Institute of Management, Ahmedabad (IIMA). The Placement Report is the responsibility of IIMA. Our responsibility is to validate the information provided in the report with the relevant documentation and comment on the Placement Report's conformance with the Indian Placement Reporting Standards (IPRS) Revision 2.2.

In this context, we confirm the following:

1. For the purpose of the audit, we have obtained all the information and explanations which to the best of our knowledge and belief were necessary. In our opinion, the Placement Report complies with the Indian Placement Reporting Standards Revision 2.2.

2. The validation of information presented in the report is based on communication received by IIMA from recruiting companies. B2K Analytics (formerly Brickworks Analytics) has not independently sourced any information or documentation directly from the recruiters.
3. We have verified the information with respect to job location, function and remuneration presented in the report with communication received from recruiters by IIMA.
 - a. The information has been categorised as best as possible under different salary heads as given in the IPRS Revision 2.2; where a break-up was not available, the salary has been considered only as 'Maximum Earning Potential'.
 - b. The data points mentioned under different salary heads are representative of aggregate salary components offered to the candidates.
 - c. Long-Term benefits (to be paid after twelve months) like ESOPs, retention bonus and any other long-term benefit (if mentioned in the offer letter) to be paid after the first year have not been considered for the calculation of MEP.
 - e. We have considered the amount of gratuity in the calculation of MEP even though it is payable after 5 years of continuous service as this amount was not separately available for all the candidates.
 - f. Wherever information about job location and function of students could not be established from the documents, the same has been confirmed by the institute. An official declaration regarding the function has been obtained from the Placement Chair.
 - g. Wherever information was missing reasonable assumptions have been made.

4. The acceptance of offers and the number of students opting out of the placement process has been established through written communication from those students.
 - a. Out of 47 students eligible for placements, 1 student who was company sponsored and already employed opted out of placement process.
5. While auditing the data it was observed that not all the students have been offered one-time cash payments like joining bonus, retention bonus etc. Therefore, the average of one-time cash payments, represents the average of one-time cash payments actually received by the students and not the average of all the students.
6. We have only audited the data related to salary, function & location in the placement report and not the report's overview section, which explains the placement process.

Best Regards,

Ritaban Basu
